FOREWORD

This preliminary edition of the bibliography IBIDEM has many gaps and probably a lot of mistakes. It therefore needs many additions and corrections to produce a first regular edition which will really be of use to readers.

So I would like to ask all colleagues who get to see this for their help: those who can give any details themselves, please do so; those who cannot should please hand on this preliminary edition to someone they believe migth be able to help me.

I need details in all categories, i.e. on missing periodicals, on editors, availability etc. The smallest hint could be most useful. I would particularly ask librarians to let me have details to category 990; which periodicals can be found in which library under which call number. I promise anyone who helps a gratis copy of the First Edition as thanks.
